BASKETBALL FOR LIFE SKILLS

Project Number: 613606-EPP-1-2019-1-CY-SPO-SCP

Basketball for Life Skills (BASKI)

Newsletter 3

Last November 2021, the BASKI project partners met in Thessaloniki, Greece, for a Transnational Partner Meeting that took place in a hybrid form (face-to-face and online) hosted by Educational Association Anatolia. During this meeting, partners allocated the project's future tasks and expected results. All partners had the opportunity to review the transnational report submitted by the EAA partners as well as the BASKI Policy Adaptation Guide prepared by ASD Margherita Sports e Vita (MSV). The Center for Social Innovation presented a draft version of the upcoming platform of the project, which includes the training modules related to “Coach the coach” and “Coaches coaching children” toolkit.

Following this meeting, the partners met again in April at Bari, Italy. Each partner presented their work so far and participation sports education events in order to disseminate the project's aims and attract interested stakeholders.

This meeting also included the presentation of the platform in all languages created by the Center for Social Innovation, and the final feedback from partners was received. At last, the partners decided on the details of the project's final meeting hosted by the Cyprus Basketball Federation (CBF), which will take place in Cyprus in June 2022.
